# Up-Leveling the IT Professionals at the Heart of Your Integrated Tech Stack

Russell Young

Karen Wuerfl

Pat L'Heureux

# Introductions

Russell Young  
Chief Business Development Officer  
Tenna

Karen Wuerfl  
Strategic IT Executive  
KLW Construction Technology Solutions

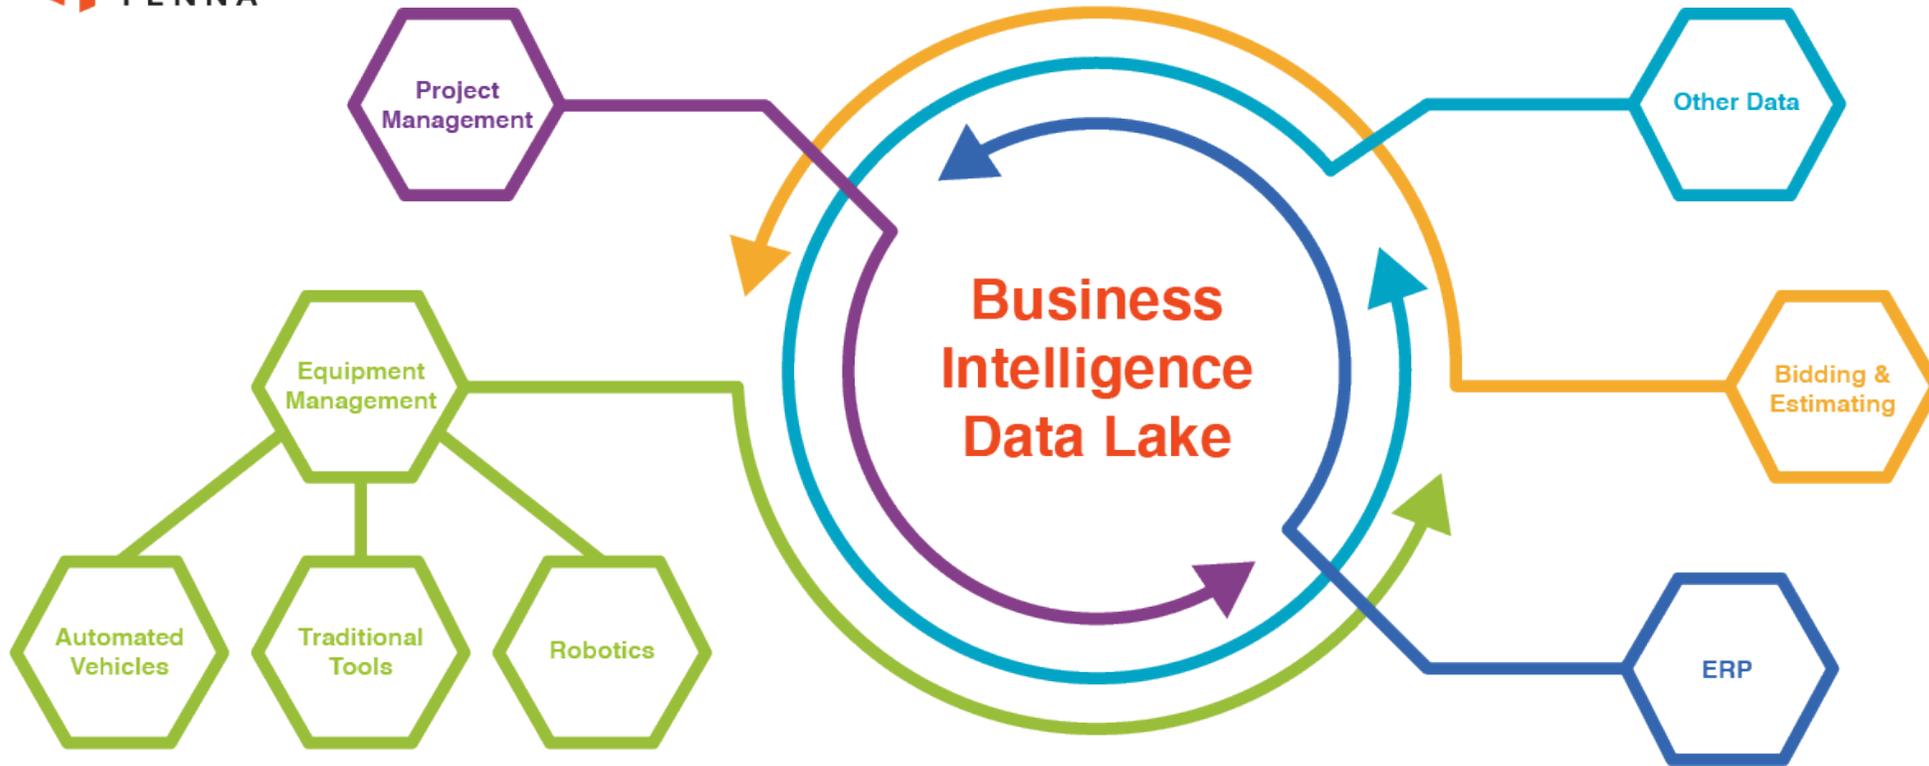

Pat L'Heureux  
Project Engineer  
Severino Trucking

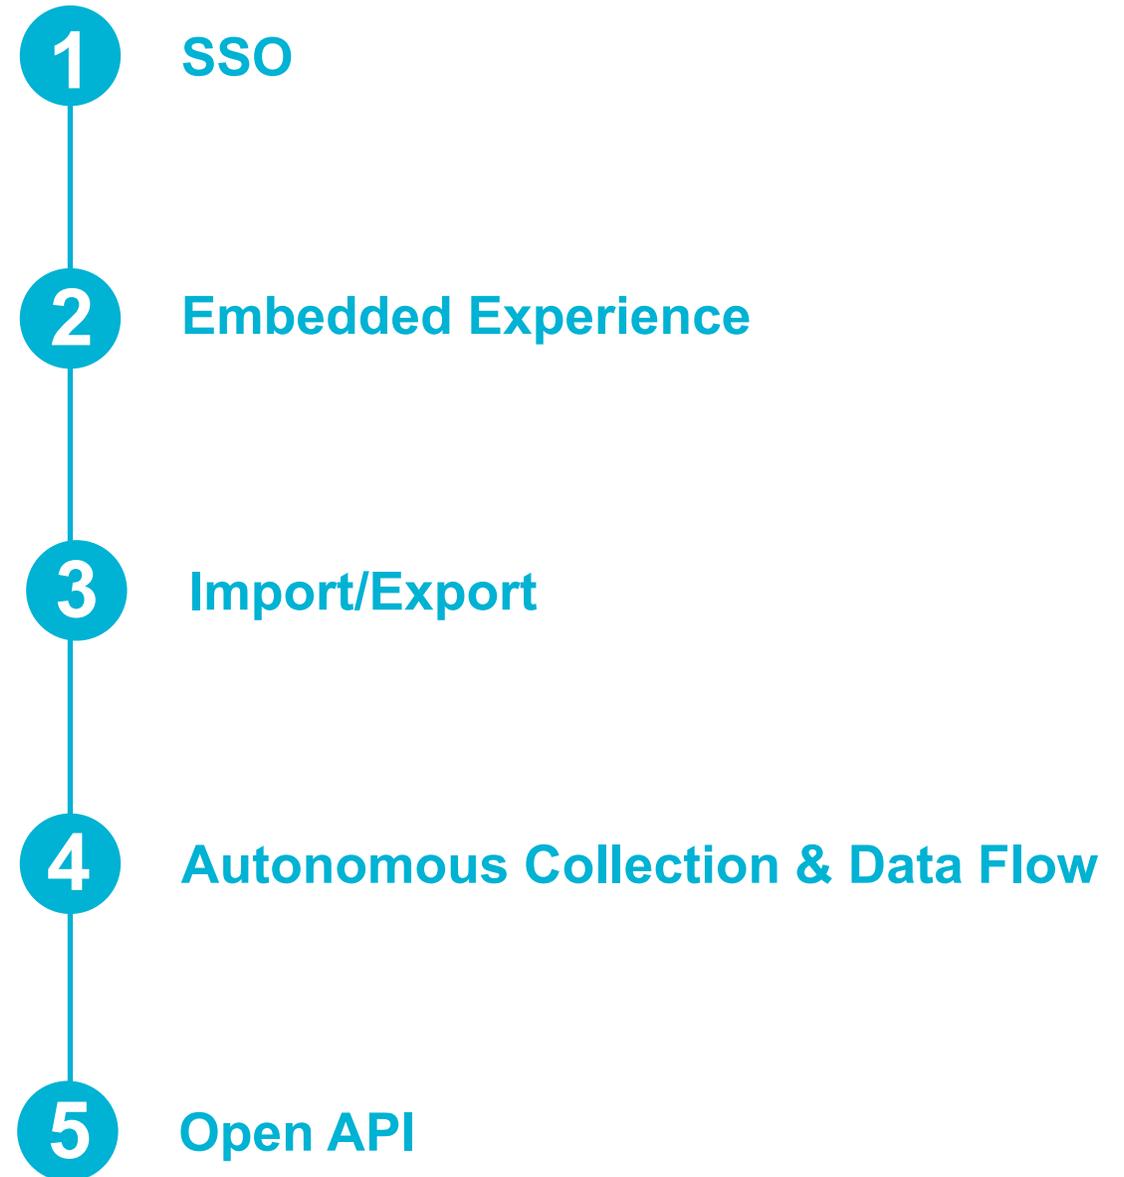

# Learning Objectives

1. Implementing systems that serve as a single source of truth vs. a single source of references.
2. Understanding how integrations REALLY work, dispelling the import/export myth and other common misconceptions.
3. Leveraging systems that are current (and ahead) on usability and functionality vs. outdated legacy systems.
4. Ways IT professionals can best serve their construction businesses.

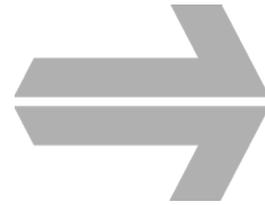

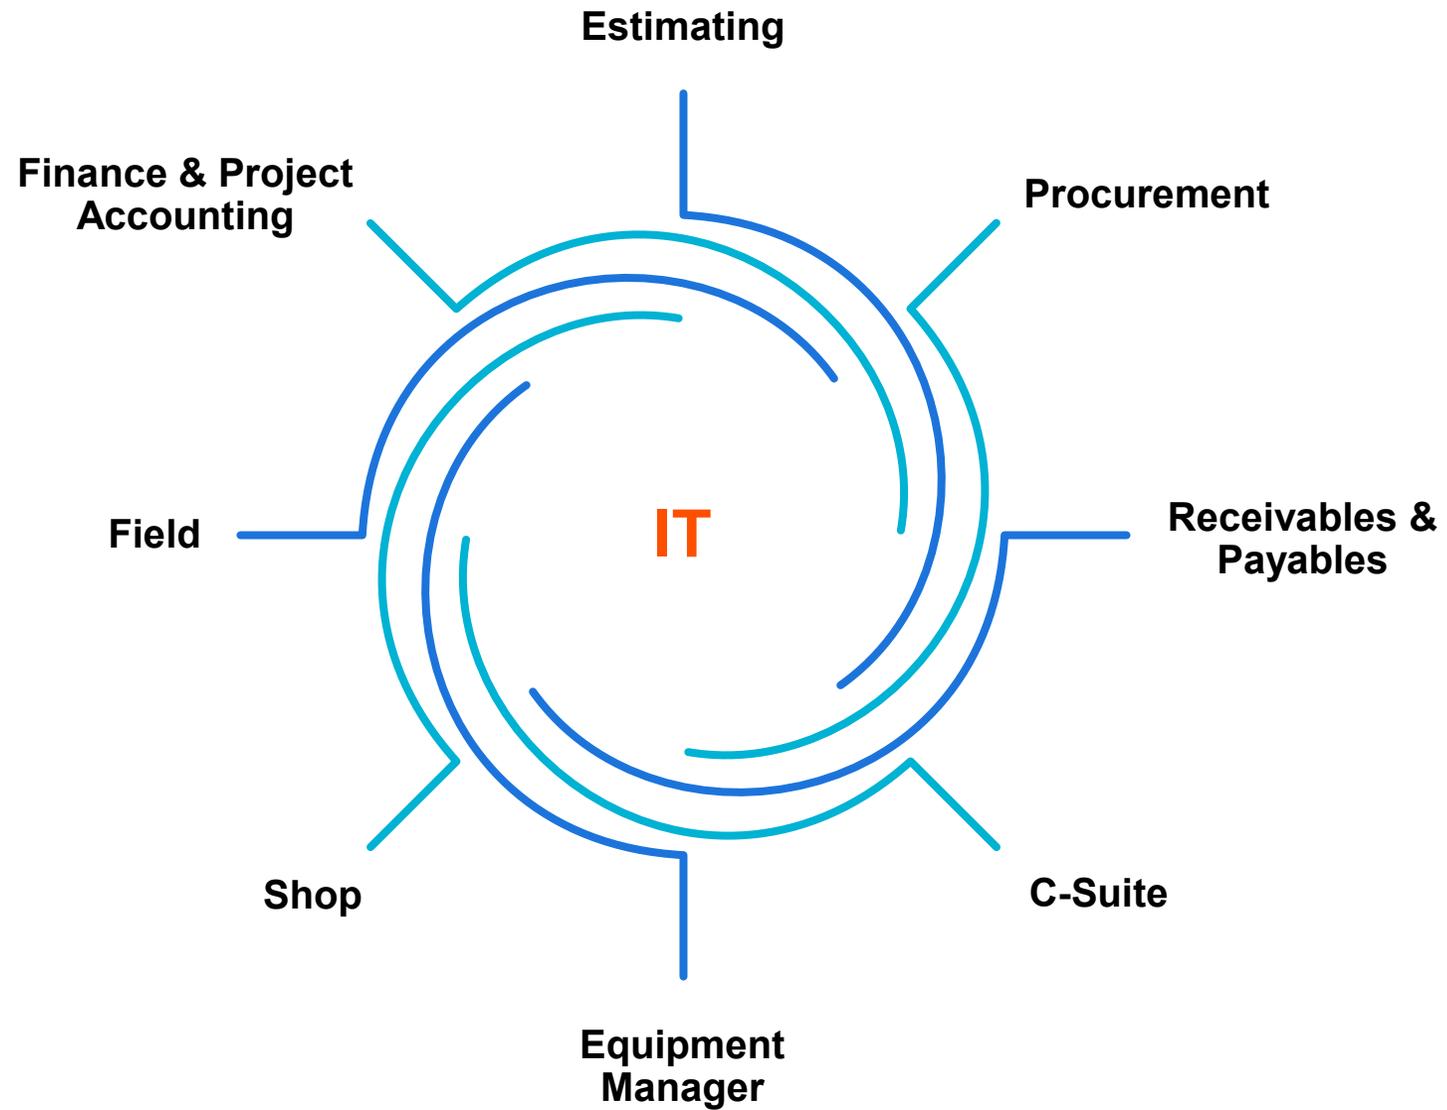

# Levels of Integration

# Where's the Information?
